Pro Control's ultimate processor delivers comprehensive control over your environment when partnered with the Pro24.z and iPro.8 remotes. Designed to command even the most complex electronic systems, the ProLink.z boasts a formidable

array of control options. In addition to two voltage-sensing inputs for improved management of connected devices, it features six IR output ports, an integrated 2.4 GHz Zigbee® antenna, Ethernet port for network control of a virtually unlimited number of devices, and two 2-way RS-232 ports for advanced bi-directional control and monitoring of devices via the Pro24.z and iPro.8 controllers.

The ProLink.z also integrates seamlessly with tablets, smartphones and PCs with an activated ProPanel app from iTunes®, and is fully customizable via Pro Control's wizard-based software.
